SIT30522 Certificate III in Events

About this course

This qualification is designed for Year 11 and 12 students, currently at school who would like to participate in a CareerLink program.

Learn the skills to assist in managing events from the planning through to show day and the follow up after the event. You'll be introduced to industry standard practices and begin to develop your creative skills so you can deliver professional events to your clients under the supervision of more senior staff.

Events are diverse in nature and this qualification provides a pathway to work in event or exhibition organisations, operating in a range of industries including tourism and travel, hospitality, sport, cultural and community sectors. Employers include event or exhibition management companies, event venues, or organisations that arrange their own events.

You could find yourself working in an office environment where the planning of events takes place, on-site at venues where events are staged or a combination of both.

This course prepares you for roles such as:

- Event Assistant
- Event Administrative Assistant
- Event Operations Assistant
